Question 3 **Multiple Choice** **0 points**

**Question** Which of the following statements is NOT true? Households and economies both

**Answer**

- must allocate scarce resources.
- face many decisions.
- must allocate the goods and services they produce.
- ✓ must have a central decision maker.

[Modify](#) [Remove](#)

[◀ Add Question Here](#)

Question 4 **Multiple Choice** **0 points**

**Question** With what concept does economics deal primarily with?

**Answer**

- ✓ scarcity
- poverty
- change
- power

[Modify](#) [Remove](#)

[◀ Add Question Here](#)

Question 5 **Multiple Choice** **0 points**

**Question** Which of the following is NOT included in the decisions that every society must make?

**Answer**

- what goods will be produced
- who will produce the goods
- ✓ what determines consumer preferences
- who will consume the goods

[Modify](#) [Remove](#)

[◀ Add Question Here](#)

Question 6 **Multiple Choice** **0 points**

**Question** For what reason do both households and societies face many decisions?

**Answer**

- ✓ because resources are scarce
- because populations may increase or decrease over time
- because wages for households and therefore society fluctuate with business cycles
- because people, by nature, tend to disagree

[Modify](#) [Remove](#)

[◀ Add Question Here](#)

Question 7 **Multiple Choice** **0 points**

**Question** When is a good considered scarce in a society?

**Answer**

- when more output of the good is possible
- ✓ when everyone in that society cannot have all they want of the good
- when the government restricts production of the good
- when only the richest people in the economy can buy all they want of the good

[Modify](#) [Remove](#)

[◀ Add Question Here](#)

Question 8 **Multiple Choice** **0 points**

**Question** When does scarcity exist?

**Answer**

- when there is less than an infinite amount of a resource or good
- when society can meet the wants of every individual
- ✓ when there is less of a good or resource available than people wish to have

[Modify](#) [Remove](#)

when the government fails to produce goods

[Add Question Here](#)

- Question 9** **Multiple Choice** **0 points**
- Question** Which of the following would NOT be true in a world without scarcity?
- Answer**
- There would be no need for the science of economics.
  - Everyone would have all the goods and services they wanted.
  - ✓ There would have to be an infinite supply of every resource.
  - There would be opportunity costs.

[Modify](#) [Remove](#)

[Add Question Here](#)

- Question 10** **Multiple Choice** **0 points**
- Question** Approximately what percentage of the world's economies experience scarcity?
- Answer**
- 25%
  - 50%
  - 75%
  - ✓ 100%

[Modify](#) [Remove](#)

[Add Question Here](#)

- Question 11** **Multiple Choice** **0 points**
- Question** What is the economy experiencing when a society cannot produce all the goods and services people wish to have?
- Answer**
- ✓ scarcity
  - communism
  - externalities
  - market failure

[Modify](#) [Remove](#)

[Add Question Here](#)

- Question 12** **Multiple Choice** **0 points**
- Question** For society, when is a good NOT scarce?
- Answer**
- if at least one individual in society can obtain all he or she wants of the good
  - if firms are producing at full capacity
  - ✓ if all members of society can have all they want of it
  - if those who have enough income can buy all they want of the good

[Modify](#) [Remove](#)

Question 18	<b>Multiple Choice</b>	<b>0 points</b>	<a href="#">Add Question Here</a> <a href="#">Modify</a>   <a href="#">Remove</a>
<p><b>Question</b> Which of the following is NOT a major area of study for economists?</p> <p><b>Answer</b> <input type="checkbox"/> how people make decisions  <input checked="" type="checkbox"/> how countries choose national leaders  <input type="checkbox"/> how people interact with each other  <input type="checkbox"/> how forces and trends affect the overall economy</p>			
Question 19	<b>Multiple Choice</b>	<b>0 points</b>	<a href="#">Add Question Here</a> <a href="#">Modify</a>   <a href="#">Remove</a>
<p><b>Question</b> What concept is illustrated by the adage, "There is no such thing as a free lunch"?</p> <p><b>Answer</b> <input checked="" type="checkbox"/> tradeoffs  <input type="checkbox"/> scarcity  <input type="checkbox"/> productivity  <input type="checkbox"/> efficiency</p>			
Question 20	<b>Multiple Choice</b>	<b>0 points</b>	<a href="#">Add Question Here</a> <a href="#">Modify</a>   <a href="#">Remove</a>
<p><b>Question</b> What does the adage, "There is no such thing as a free lunch," mean?</p> <p><b>Answer</b> <input type="checkbox"/> Even people on welfare have to pay for food.  <input type="checkbox"/> The cost of living is always increasing.  <input checked="" type="checkbox"/> To get something we like, we usually have to give up another thing we like.  <input type="checkbox"/> All costs are included in the price of a product.</p>			
Question 21	<b>Multiple Choice</b>	<b>0 points</b>	<a href="#">Add Question Here</a> <a href="#">Modify</a>   <a href="#">Remove</a>
<p><b>Question</b> What do economists illustrate when they use the phrase "There is no such thing as a free lunch"?</p> <p><b>Answer</b> <input type="checkbox"/> how inflation increases prices  <input checked="" type="checkbox"/> that to get one thing, we must give up something else  <input type="checkbox"/> that nothing is free in a market economy  <input type="checkbox"/> that if something looks too good to be true, it probably is</p>			
Question 22	<b>Multiple Choice</b>	<b>0 points</b>	<a href="#">Add Question Here</a> <a href="#">Modify</a>   <a href="#">Remove</a>
<p><b>Question</b> Which best represents the concept represented by the adage, "There is no such thing as a free lunch"?</p> <p><b>Answer</b> <input type="checkbox"/> Melissa can only attend the concert if she takes her sister with her.  <input type="checkbox"/> Greg is hungry and homeless.  <input type="checkbox"/> Brian must repair the tire on his bike before he can ride it to class.  <input checked="" type="checkbox"/> Kendra must decide between going to Miami or Cancun for spring break.</p>			
Question 23	<b>Multiple Choice</b>	<b>0 points</b>	<a href="#">Add Question Here</a> <a href="#">Modify</a>   <a href="#">Remove</a>
<p><b>Question</b> Guns and butter are used to represent the classic societal tradeoff between spending on which two items?</p> <p><b>Answer</b> <input type="checkbox"/> durable and nondurable goods  <input type="checkbox"/> imports and exports  <input checked="" type="checkbox"/> national defense and consumer goods  <input type="checkbox"/> law enforcement and agriculture</p>			
Question 24	<b>Multiple Choice</b>	<b>0 points</b>	<a href="#">Add Question Here</a> <a href="#">Modify</a>   <a href="#">Remove</a>
<p><b>Question</b> Henry decides to spend 2 hours playing golf rather than working at his job which pays \$8 per hour. What is Henry's tradeoff?</p> <p><b>Answer</b> <input checked="" type="checkbox"/> the \$16 he could have earned working for 2 hours  <input type="checkbox"/> nothing, because he enjoys playing golf more than working  <input type="checkbox"/> the increase in skill he obtains from playing golf for those 2 hours  <input type="checkbox"/> nothing, because he spent \$16 for green fees to play golf</p>			
Question 25	<b>Multiple Choice</b>	<b>0 points</b>	<a href="#">Add Question Here</a> <a href="#">Modify</a>   <a href="#">Remove</a>
<p><b>Question</b> When society requires that firms reduce pollution, what happens?</p> <p><b>Answer</b> <input checked="" type="checkbox"/> There is a tradeoff because of reduced incomes to the firms' owners, workers, and customers.  <input type="checkbox"/> There is no tradeoff, since everyone benefits from reduced pollution.  <input type="checkbox"/> There is no tradeoff for society as a whole, since the cost of reducing pollution falls only on the firms affected by the requirements.  <input type="checkbox"/> There is a tradeoff only if some firms are forced to close.</p>			
Question 26	<b>Multiple Choice</b>	<b>0 points</b>	<a href="#">Add Question Here</a> <a href="#">Modify</a>   <a href="#">Remove</a>
<p><b>Question</b> Daniel decides to spend the last two hours of the night before his economics exam studying instead of sleeping. For Daniel, what would his tradeoff be?</p> <p><b>Answer</b> <input type="checkbox"/> nothing, since no dollar value can be put on sleep  <input type="checkbox"/> nothing, since studying would be more beneficial than sleep  <input type="checkbox"/> the six hours of sleep he could have had if he had gone to bed before midnight  <input checked="" type="checkbox"/> the two hours of rest he would have gotten</p>			
<a href="#">Add Question Here</a>			

Question 27	<b>Multiple Choice</b>	<b>0 points</b>	<a href="#">Modify</a>   <a href="#">Remove</a>
<b>Question</b> How does a tradeoff exist between a clean environment and a higher level of income?			
<b>Answer</b> Studies show that individuals with higher levels of income actually pollute less than low-income individuals. To pay for pollution clean-up, the government must increase taxes which lowers income.			
<input checked="" type="checkbox"/> Laws that reduce pollution raise costs of production and reduce incomes. By employing individuals to clean up pollution, employment and income both rise.			
<a href="#">Add Question Here</a>			
Question 28	<b>Multiple Choice</b>	<b>0 points</b>	<a href="#">Modify</a>   <a href="#">Remove</a>
<b>Question</b> Which of the following would NOT be a result of laws that require firms to reduce pollution?			
<b>Answer</b> <input checked="" type="checkbox"/> lower spending by government higher prices to consumers lower wages to workers smaller profit to firms			
<a href="#">Add Question Here</a>			
Question 29	<b>Multiple Choice</b>	<b>0 points</b>	<a href="#">Modify</a>   <a href="#">Remove</a>
<b>Question</b> What will pollution regulations do?			
<b>Answer</b> increase profit to firms <input checked="" type="checkbox"/> impose a tradeoff on society allow firms to raise workers' wages lower prices for consumers			
<a href="#">Add Question Here</a>			
Question 30	<b>Multiple Choice</b>	<b>0 points</b>	<a href="#">Modify</a>   <a href="#">Remove</a>
<b>Question</b> Which of the following best defines efficiency?			
<b>Answer</b> absolute fairness equal distribution <input checked="" type="checkbox"/> minimum waste consumer sovereignty			
<a href="#">Add Question Here</a>			
Question 31	<b>Multiple Choice</b>	<b>0 points</b>	<a href="#">Modify</a>   <a href="#">Remove</a>
<b>Question</b> What does efficiency mean?			
<b>Answer</b> Society is conserving resources in order to save them for the future. Society's goods and services are distributed fairly among society's members. Society has lessened its dependence on foreign energy sources. <input checked="" type="checkbox"/> Society is getting the most it can from its scarce resources.			
<a href="#">Add Question Here</a>			
Question 32	<b>Multiple Choice</b>	<b>0 points</b>	<a href="#">Modify</a>   <a href="#">Remove</a>
<b>Question</b> In which of the following situations would economists use the word equity?			
<b>Answer</b> Each member of society has the same income. Society is getting the most it can from its scarce resources. Those in society who have the least will receive the most. <input checked="" type="checkbox"/> The benefits of society's resources are distributed fairly among society's members.			
<a href="#">Add Question Here</a>			
Question 33	<b>Multiple Choice</b>	<b>0 points</b>	<a href="#">Modify</a>   <a href="#">Remove</a>
<b>Question</b> What is one definition of equity?			
<b>Answer</b> equality efficiency <input checked="" type="checkbox"/> fairness similarity			
<a href="#">Add Question Here</a>			
Question 34	<b>Multiple Choice</b>	<b>0 points</b>	<a href="#">Modify</a>   <a href="#">Remove</a>
<b>Question</b> What happens when government policies are being designed?			
<b>Answer</b> <input checked="" type="checkbox"/> There is usually a tradeoff between equity and efficiency. Equity and efficiency goals are usually independent of each other. Equity can usually be achieved without an efficiency loss. Increasing efficiency usually results in more equity.			
<a href="#">Add Question Here</a>			
Question 35	<b>Multiple Choice</b>	<b>0 points</b>	<a href="#">Modify</a>   <a href="#">Remove</a>
<b>Question</b> When government policies such as the welfare system try to help the most needy members of society, what happens?			
<b>Answer</b> <input checked="" type="checkbox"/> It increases equity and reduces efficiency. It reduces charitable contributions in an economy. It increases the productivity of the needy in the society. It causes market failure to occur.			
<a href="#">Add Question Here</a>			
Question 36	<b>Multiple Choice</b>	<b>0 points</b>	<a href="#">Modify</a>   <a href="#">Remove</a>

**Question** When the government implements programs such as progressive income tax rates, which of the following is likely to occur?

- Answer**
- Equity is increased and efficiency is increased.
  - Equity is increased and efficiency is decreased.
  - Equity is decreased and efficiency is increased.
  - Equity is decreased and efficiency is decreased.

Question 37 **Multiple Choice** **0 points**

**Question** When the government attempts to cut the economic pie into more equal slices, what happens?

- Answer**
- It is easier to cut the pie, and therefore the economy can produce a larger pie.
  - The government can more easily allocate the pie to those most in need.
  - The pie gets smaller, and there will be less pie for everyone.
  - The economy will spend too much time cutting and loses the ability to produce enough pie for everyone.

[Add Question Here](#)

[Modify](#) [Remove](#)

Question 38 **Multiple Choice** **0 points**

**Question** When the government attempts to improve equity in an economy, what is often the result?

- Answer**
- an increase in overall output in the economy
  - additional government revenue since overall income will increase
  - an actual reduction in equity
  - reduced efficiency in the economy

[Add Question Here](#)

[Modify](#) [Remove](#)

Question 39 **Multiple Choice** **0 points**

**Question** When the government redistributes income from the rich to the poor, what is the result?

- Answer**
- Efficiency is improved, but equity is not.
  - Both rich people and poor people benefit directly.
  - People work less and produce fewer goods and services.
  - Rich people consume fewer goods, but poor people consume more goods, resulting in no real change.

Question 42 **Multiple Choice** **0 points**

**Question** Paul receives \$300 as a birthday gift. In deciding how to spend the money, he narrows his options down to four choices, Option A, Option B, Option C, and Option D. Each option costs \$200. Finally he decides on Option B. What is the opportunity cost of Option B?

- Answer**
- the value to him of the Option he would have chosen if Option B were not available
  - the value to him of Options A, C, and D combined
  - \$300
  - \$200

[Add Question Here](#)

[Modify](#) [Remove](#)

Question 43 **Multiple Choice** **0 points**

**Question** What is the opportunity cost of going to college?

- Answer**
- the total spent on food, clothing, books, transportation, tuition, lodging, and other expenses
  - the value of the best opportunity a student gives up to attend college
  - zero for students who are fortunate enough to have all of their college expenses paid by someone else
  - zero, since a college education will allow a student to earn a larger income after graduation

[Add Question Here](#)

**Question** Tim has spent \$2,500 purchasing and repairing a Hummer, which he expects to sell for \$3,500 once the repairs are complete. He discovers that he needs an additional repair, which will cost \$1,100, in order to complete the repairs. He can sell the Hummer as it is now for \$900. What should he do?

- Answer**
- He should cut his losses and take the \$900.
  - He should never sell something for less than it cost.
  - ✓ He should complete the repairs and sell the Hummer.
  - It doesn't matter which action he takes; the outcome is the same either way.

Question 200	<b>Essay</b>	<b>0 points</b>	<a href="#">Modify</a>   <a href="#">Remove</a>
	<b>Question</b> What would happen to the study of economics if scarcity disappeared?		
	<b>Answer</b> Since economics is the study of how society allocates its scarce resources, if there were no scarcity, there would be no need for economics. Everyone could have all the goods and services they wanted. No one would have to make decisions based on tradeoffs, because there would be no opportunity cost associated with the decision. (It is difficult to conceive of a situation where time is not scarce, however).		
			<a href="#">Add Question Here</a>
Question 201	<b>Essay</b>	<b>0 points</b>	<a href="#">Modify</a>   <a href="#">Remove</a>
	<b>Question</b> One tradeoff society faces is between efficiency and equity. Define each term. If the Canadian government redistributes income from the rich to the poor, explain how this action affects equity as well as efficiency in the economy.		

**Answer** Efficiency is the property of society getting the most it can from its scarce resources. Equity is defined as the property of distributing economic prosperity fairly among the members of society. Often, these two goals conflict. When the government redistributes income from the rich to the poor, it reduces the reward for working hard. Fewer goods and services are produced and the economic pie gets smaller. When the government tries to cut the economic pie into more equal slices, the pie gets smaller. Policies aimed at achieving a more equal distribution of economic well-being, such as the welfare system, try to help those members of society who are most in need. The individual income tax asks the financially successful to contribute more than others to support the government.

Question 202 **Essay**

**0 points**

[Modify](#) | [Remove](#)

**Question** Define opportunity cost. What is the opportunity cost to you of attending college? What was your opportunity cost of coming to class today?

**Answer** Whatever must be given up to obtain some item is its opportunity cost. Basically, this would be a person's second choice. The opportunity cost of a person attending college is the value of the best alternative use of that person's time. For most students this would be the income the student gives up by not working. A student's opportunity cost of coming to class was the value of the best opportunity the student gave up.

Question 203 **Essay**

**0 points**

[Modify](#) | [Remove](#)

**Question** With the understanding that people respond to incentives, outline the possible outcome for teachers if the K-12 school year is extended to 11 months per year instead of the existing 10 months per year.

**Answer** The concept of working longer per year would be perceived by many teachers as a definite increase in the cost of teaching. Even with additional compensation, many teachers look at summers off as a major benefit of the education profession. If this benefit were eliminated or even diminished, some teachers may perceive that the marginal cost of teaching would now be greater than the marginal benefit and would choose to leave teaching.

Question 204 **Essay**

**0 points**

[Modify](#) | [Remove](#)

**Question** Under what conditions might government intervention in an economy improve the market outcome?

**Answer** If there is a market failure, such as an externality or monopoly, government regulation might improve the well-being of society by promoting efficiency. If the distribution of income or wealth is considered to be unfair by society, government intervention might achieve a more equitable distribution of economic well-being.

[◀ Add Question Here](#)

Question 205 **Essay**

**0 points**

[Modify](#) | [Remove](#)

**Question** Explain how an attempt by the government to lower inflation could cause unemployment to increase in the short-run.

**Answer** To lower inflation, the government may choose to reduce the money supply in the economy. When the money supply is reduced, prices do not adjust immediately. Lower spending, combined with prices that are too high, reduce sales and cause workers to be laid off. Hence, the lower price level is associated with higher unemployment.
